

We are a young, agile and highly motivated startup in the center of Wiener Neustadt and develop new and innovative mobile ticketing solutions for sports, music and cultural events. We are expanding our team and looking for one

## Softwareentwickler/in .NET

### our tasks

- Participation in the creation and implementation of the application and database architecture
- In this capacity you are part of a very dedicated, experienced and highly qualified team of software and database developers. You develop new applications and services for our platform and expand existing solutions. In the process you cover all steps - from the idea and architecture over the implementation to the test and rollout.

### your profile

- Completed IT education and / or studies (HTL, FH, TU or similar)
- Practical experience in database development, especially with Microsoft SQL Server
- Interest and fun in new technologies
- Secure handling of .NET 4.x, C #
- Resilience, teamwork and a high level of commitment
- Very good German and English skills

### another advantage is

- Know-how and experience in the ticketing or payment environment
- Knowledge in the field of software tests (test automation, performance tests)
- Experience in using Web Services, REST and JSON

### our offer

- A pleasant working environment in the center of Wiener Neustadt
- An interesting and challenging area of responsibility
- The opportunity to develop in a team and to grow with the tasks

This item is subject to a collective agreement minimum monthly salary of EUR 2,273 gross. There will be a performance-based overpayment, depending on your qualifications and experience.

Are you ready? Then send your meaningful application to [jobs@keyper.io](mailto:jobs@keyper.io).
